

T77 Turntable

The Revox T77 Turntable is a high-end turntable for home and studio systems. It features an integrated MC phono preamplifier with extensive customization options. With its built-in XLR output, the new Revox T77 is ideally equipped for perfect playback—in both private and professional settings. It is manufactured in Germany from the highest quality materials and also stands out thanks to its elegant appearance.

T77 Turntable

TECHNICAL DATA

Order Number	1.279.003.00		
	MC Phono Preamplifier	Gain factor (1kHz)	4 settings: 56 dB (1200 µV), 62 dB (600 µV), 68 dB (300 µV), 74 dB (150 µV)
Frequency response	7 Hz ... 80 kHz (-3dB)	Pick-up	Ortofon Quintet Black
Signal-to-noise ratio	- 69 dB (20 Hz ... 20 kHz)	Connectors	Balanced analog output (XLR stereo) DC power socket
Distortions	0,005 %	Dimensions	470 x 337 x 160 mm (WxDxH) without sockets
Channel offset	0.2 dB	Projection (back)	16 mm (hinge, RCA sockets)
Channel separation	higher 80 dB	Weight	10.3 kg total 2.85 kg platter (POM) 0.21 kg inner platter (aluminium)
Subsonic filter	10 with first-order high pass (6 dB filter)		
RIAA precision	± 0.2 %		
Impedance matching	6 settings: 47 Ω, 100 Ω, 220 Ω, 470 Ω, 1 kΩ, 2 kΩ		
Input sencitivity	4 settings: 150 µV, 300 µV, 600 µV, 1,2 mV		

ACCESSORIES

	incl.
Solid acrylic glass protective cover	✓
Digital tonearm scale	✓
Record brush	✓
Bubble level	✓
Anti-skating weight	✓
Tonearm counterweight	✓
Turntable belt	✓
White gloves	✓

Accessories in a noble wooden box (incl.)
