

# STUDIOCONTROL C200

# COMFORTABLE HIGH-QUALITY SMART

The Revox **STUDIOCONTROL** C200 enables convenient control of audio systems and is suitable for a wide range of SMART HOME applications. From the operation of your hi-fi and multi-room system to the control of the lighting, blinds and the door system to the coffee machine.

The C200 is made of aluminium and has a very high quality touch display. It is Android based and Google certified. All very smart.

Your benefits:

- Innovative control
- Easy installation of apps
- User-friendly operation
- High resolution touch display
- Outstanding Design
- Usable and within reach for everyone in the house
- Durable and robust due to the aluminium housing
- Individual setup and use of defined apps through the launcher mode

**STUDIOCONTROL**, the modern way of operating.

# OUTSTANDING DESIGN

The C200 is manufactured in the tradition of all Revox products with durable and uncompromising quality. The selection of materials and the form follow the function and convince as a unique product design.

The slim, exclusively manufactured touch display has an innovative assembly principle. The developers have designed their own process whereby the display, front glass and the aluminium frame milled from one piece are combined into one component. This makes the control very stable and resistant for everyday use.

At the same time, the extremely thin frame around the display and the slim housing result in a very exclusive look.

The special processing of the high-quality materials guarantees a very good feel.

The **STUDIOCONTROL C200** is a real design highlight with its puristic and high-quality design.

Thanks to the high-resolution touch display, the standby and volume buttons, operating the control is easy and intuitive. An integrated loudspeaker and microphone enable a wide range of applications. And the long battery life makes the Control independent.

Everything is premium and reduced to the essentials.

## TECHNICAL DATA

Dimensions (LxWxH)	164 mm x 48.5 mm x 10.5 mm
Weight:	0.2 kg
Colour:	black

### Display

to a week running time)  
with 2400 mAh

Intuitive docking of the remote  
control through the use of  
guide magnets

# EVERYTHING IN ONE HAND

## AUDIO

With the **STUDIOCONTROL C200**, all audio systems in your house can be controlled very easily: Revox **STUDIOMASTER** systems, **STUDIOART** products, Multiuser | Multiroom systems, JOY music systems and M series. Of course, audio products and multimedia devices from other manufacturers can also be controlled (via available Android apps).

## SMART HOME | BUILDING AUTOMATION

The C200 is also ideal for control in the SMART HOME area and building automation with e.g. KNX (including Gira, Feller, Jung), Control4, RTI and LOXONE solutions. And for the execution of controls and commands for WLAN-enabled products with app control. From the couch or on the road, whatever you want to control in the house, the C200 puts complete control in your hands.

- Light control (e.g. Philips Hue, Osram Lightify)
- Roller shutter control (e.g. Somfy, Alulux)
- Window control (e.g. Velux)
- Door intercom (e.g. Gira, Feller, Jung, Siedle)
- Video surveillance (e.g. Bascom)
- Heating control (e.g. Vaillant, Viessmann)
- Coffee machine control (e.g. Jura, De Longhi)

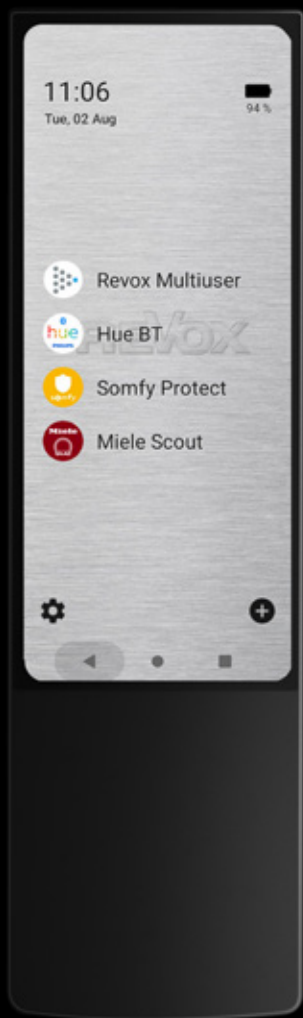

## VIDEO | GAMING

The C200 with its high-resolution display, loudspeaker and microphone is also ideal for entertaining video viewing and exciting gaming.

# COMPLETELY INDIVIDUAL

The Revox **STUDIOCONTROL** Launcher mode offers the possibility to configure the C200 and to define which apps are visible on the screen. This simplifies operation and, if desired, limits access to apps. This makes use even more individual and intuitive.

# FOR ALL ALWAYS CLOSE AT HAND

The control can be placed in the house accessible and available for everyone - without password unlocking (log-in) and visibility of personal apps / data. If desired, the control can be used in a relaxed manner away from all emails and messaging apps. It is usually in a fixed place and does not have to be looked for first. And thanks to the long battery life of up to a week, reliable operation is guaranteed.

Everything as you want it to be.
