

STUDIOMASTER T700 Turntable - BLACK EDITION -

High-end turntable with a unique integrated MC phono preamplifier. Highprecision electronic PLL speed control with contact-free optical sensor. Control panel with backlit touch sensors. Tonearm made of high-grade metals.

In the - **BLACK EDITION** - exclusively equipped with the high-quality MC pickup *Ortofon Quintet Black S*.

The top system of the Quintet series

The Quintet Black S is graced with a Nude Shibata diamond, considered one of the best stylus profiles available, mounted on a high-performance Sapphire cantilever. The Shibata's slim, highly polished profile allows an exceedingly wide contact area to the walls of the groove and ensures detailed and pure reproduction throughout the spectrum, including even the most high frequency groove information.

STUDIOMASTER T700 Turntable - BLACK EDITION -

Ortofon MC Quintet Black S

TECHNICAL DATA

Order Number	1.279.006.00	Pick-up	Ortofon MC Quintet Black S
	MC Phono Preamplifier	Speed	33 / 45 revolutions per minute
Frequency response	7 Hz ... 80 kHz (-3dB)	Speed variation	< 0.1%
Signal-to-noise ratio	- 69 dB (20 Hz ... 20 kHz)	Connectors	Analogue line output (cinch stereo) DC power socket
Distortions	0,005 %	Dimensions	470 x 336 x 156 mm (WxDxH) without sockets
Channel offset	0.2 dB	Projection (back)	16 mm (hinge, RCA sockets)
Channel separation	higher 80 dB	Weight	10.3 kg total 2.85 kg platter (POM) 0.21 kg inner platter (aluminium)
Subsonic filter	10 with first-order high pass (6 dB filter)		
RIAA precision	± 0.2 %		
Impedance matching	6 settings: 47 Ω, 100 Ω, 220 Ω, 470 Ω, 1 kΩ, 2 kΩ		
Input sensitivity	4 settings: 150 μV, 300 μV, 600 μV, 1,2 mV
