

Bass S04 Active

Whether as the foundation of a stereo system or in the home cinema: The Revox Bass S04 Active convinces with its intelligent DSP power amplifier with conceivably compact dimensions in a timeless design. The elegant spikes on felt pads ensure acoustic decoupling. The loudspeaker and bass reflex port are integrated into the base, invisible from the outside. Thanks to the wireless radio connection, the S04 Active also communicates with all active loudspeakers of the **STUDIOART** series.

TECHNICAL DATA

	Bass S04 Active	Bass S04 Active
Order Number	108445100	108443900
Dimensions H x W x D (mm)	445 x 400 x 420	445 x 400 x 420
Color	black	white
Weight (kg)	18,5	18,5
RMS output power (watt)	160	160
Acoustic principle	Downfire - Bassreflex	Downfire - Bassreflex
Transmission range	30 Hz - 40 Hz ... 200 Hz*	30 Hz - 40 Hz ... 200 Hz*
Max. sound pressure (dB)	110	110
Loudspeaker chassis (mm)	Longstroke Woofer (260)	Longstroke Woofer (260)
max. NF input voltage	2,0 V (Line Input - Stereo)	2,0 V (Line Input - Stereo)
Crossover frequency	40 Hz - 200 Hz (line-in only)	40 Hz - 200 Hz (line-in only)
Standby (watt)	< 0,9	< 0,9
Special features	KleerNet radio connection DSP signal processing	KleerNet radio connection DSP signal processing

* Depending on the low-pass controller
