

Botanic Floor Plate

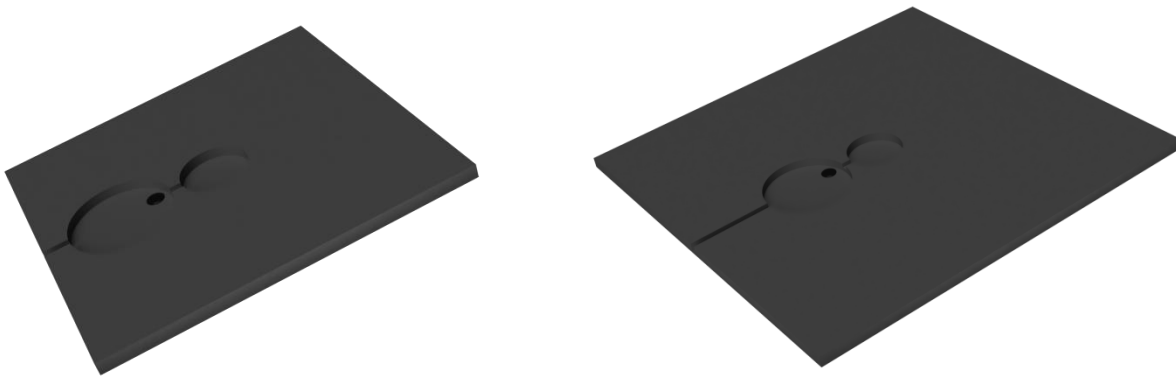

The Botanic Floor Plate is a wooden base plate that is splash-proof thanks to a special lacquer finish. It is recommended for indoor or protected outdoor use. It has a practical speaker cable guide that allows the cable to be laid neatly and out of sight. There is also a cable grommet, which is sealed watertight with a plug ex works. This means that the Botanic Floor Plate is also suitable for installation above a floor box. The reduced external dimensions of the base plate create a visual effect under the Botanic that makes the sounding plant pot appear to float.

OVERVIEW VARIANTS

Botanic Floor Plate 50 – art.no.: 108465520

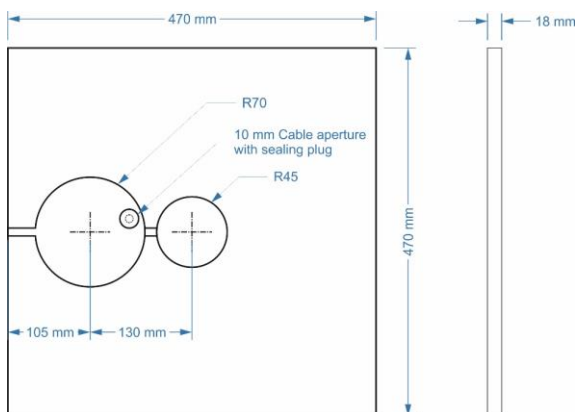

Botanic Floor Plate 70 – art.no.: 108465720

Colour: anthracite grey (RAL7016)
