SMART MUSIC EXPERIENCE

*"MUSIC SHOULD BE WHERE EVER YOU ARE
AND SUITED TO YOUR INDIVIDUAL TASTE,
HOME DESIGN AND LIFESTYLE"*

SMART LIVING

Smart Living makes everything easier, safer and more convenient, while also improving our own sense of home.

Innovative technologies are transformed into 'helpful flatmates'. And the full package would not be complete without home entertainment. After all, a personal music experience contributes significantly to how comfortable we feel in the room.

Multiroom solutions enable a simultaneous yet personal experience of music across several rooms.

With the extraordinary quality of its products, Revox has been a leading provider of special solutions for over 40 years. Multiuser | multi-room systems by Revox take things to whole new level compared to standard products. They enable impeccable sound quality and unique individuality for every single user in one room or even across several.

A NEW MUSIC EXPERIENCE

INDIVIDUAL. ANYWHERE. MULTIPLE USERS.

Revox offers fully customised solutions for various living spaces, indoor and outdoor areas and a wide range of use cases, e.g. in private households, restaurants, hotels and public buildings etc.

We would be delighted to provide detailed advice and will cooperate with our Revox partners to compile a complete concept according to your wishes!

"REVOX CONSISTENTLY PROVIDES EXCELLENT SOUND IN A VISUALLY PERFECT SOLUTION."

REVOX

ENTIRELY INDIVIDUAL - CUSTOM-BUILT

PLANNING STEPS FOR THE REVOX MUSIC CONCEPT

We join with you to compile the ideal solution to meet your needs:

What kind of property are we dealing with?

e.g. new build, conversion, retrofit, rental property

How many people will operate the audio system?

Which rooms need to be equipped?

e.g. living room, bathroom, kitchen, bedroom

Which audio connection do you want to use?

network cable (LAN) and/or standard wireless connection (Wi-Fi), Bluetooth

Which sources do you want to use?

e.g. AirPlay 2, streaming services (e.g. Spotify, Tidal, Deezer), music servers, internet radio, TV

What kind of sound do you want in the rooms?

e.g. TV/home entertainment, active listening, background music

What kind of loudspeakers do you prefer?

e.g. Invisible, built-in or floor-standing speakers

How do you want to operate the audio system and in which room?

e.g. wall control, multiuser app, remote control

Studio Sound Quality

HOME / APARTMENT
RENTAL PROPERTY

YOUR MUSIC CONCEPT HOME

Music should be where ever you are and suited to your individual taste. A great music experience enhances the quality of your home and life. Regardless of whether you are in the living room, the kitchen, the spa area or on the terrace. Smart multiroom solutions deliver unique ease of use and are operated intuitively. Whether it's a new build, conversion or retrofit in your rental property – we deliver the right audio solution for a special music experience.

BENEFITS

- Highest sound quality
- Music in multiple rooms simultaneously
- Customised for multiple users
- Set up of rooms and zones (e.g. living room + kitchen, bedroom + bathroom)
- Discrete solutions with Invisible Speakers
- Music in damp environments as well (e.g. the bathroom or spa)
- Integration of outdoor areas (e.g. the terrace)

MUSIC, ANYWHERE IN YOUR HOME

Learn more about the Revox audio systems and loudspeakers, as well as their impressive and individual sound solutions. Entirely modular to meet your needs and accommodate future upgrades.

We would be happy to advise you and prepare a personal planning.

Use case: Planning with Revox audio systems and speakers.

YOUR MUSIC CONCEPT HOTEL

Guests should feel at home in a hotel and experience a comfortable setting with a professional environment for meetings. Creating this experience requires highest sound quality in all rooms. With Revox audio systems, you can reliably broadcast music and public announcements in outstanding quality throughout the establishment. Built into walls, ceilings or furniture, our invisible speakers remain completely hidden. They are the ideal solution for all special use cases in hotels.

BENEFITS

- Highest sound quality in all rooms
- Set up rooms and zones (lobby, restaurant, conference areas, suites)
- Easy to operate, custom configurations/ default settings
- Every guest can play music in their own rooms just the way they prefer
- Individual products to match the architecture and interior design
- Music in special environments as well (e.g. spa, pool area, outdoors)

CATERING

YOUR MUSIC CONCEPT CATERING

Catering establishments need the right music concept to highlight the tasteful ambience. Guests should feel at ease, whether with soft background music while eating or atmospheric music while enjoying a drink at the bar. Revox audio systems let you play the right music to suit the requirements and space. Built into walls, ceilings or furniture, our invisible speakers even remain completely hidden. Ideally designed for all use cases in the catering sector.

BENEFITS

- Highest sound quality in all rooms
- Easy to operate, custom configurations/ default settings
- Set up rooms and zones (e.g. restaurant, bar, terrace)
- Individual products to match the architecture and interior design
- Integration of outdoor areas possible (e.g. the terrace, gardens)

RANGE OF PRODUCTS

Revox offers a wide range of products with audio systems, amplifiers, speakers and even invisible sound membranes, which can all be combined into a future-proof multiuser system – depending on whether you want a standalone, multi-room solution or integration into a smart home system. We provide everything you need for an individual music experience. All elements are coordinated, mutually compatible and can be upgraded at any time to meet your needs,

requirements or design demands, e.g. elegant floor-standing speakers in the living room or invisible speakers as a concealed solution in the kitchen.

Ideal for use in new builds, but just as suitable for retrofits and in rental properties thanks to the Wi-Fi option.

CONTROL UNITS

The Revox control concept is designed to give users multiple options and to ensure consistently simple and intuitive operation – at the touch of a button with the wall-mounted control, always at hand with the Multiuser App for smartphones and tablets or the traditional way with a remote control.

The new Multiuser 3.0 comes with game-changing benefits. In addition to LAN, the Wi-Fi option enables the connection of several products for multiroom use cases. The Revox Multiuser App allows users to bookmark every available audio source in the system as a personal favourite in

Revox **STUDIOCONTROL C200**

their user profiles. This concept creates a simple and immediately operable system, whether in one room or across several.

The easiest operation – worldwide.

REVOX INVISIBLE SPEAKERS

Harmonious aesthetics and functionality are vital factors in the world of modern architecture. Invisible speakers from Revox are not just ordinary flat-panel models. They are integrated design elements, miracles of surround sound, convenient PA systems and much more besides. Their versatility in accommodating any con-

ceivable room design is incredible – whether in walls, ceilings, façades, decorative materials or cabinets. They can be built in virtually any shape or material and to meet almost any structural requirement. These capabilities enable their use in particularly demanding locations – both indoors and outdoors.

REVOX INVISIBLE SPEAKERS – BENEFITS

Discrete solution for exceptional interior design and unbeatable customisation

Suitable for installation in ceilings, walls, indoor and outdoor areas – with minimum installation depth

Built for damp environments as well (e.g. bathroom, spa, pool area)

Wide-area sound dispersion – impressive audio experience, regardless of the listener’s position

Protected against damage and theft

Carbon fibre materials for indoor / outdoor applications in humid and hot environments and extremely high sound pressure levels

Revox Invisible Speakers are compatible with Revox Subwoofers for optimised bass reproduction

Material, production and warranty ‘Made in Germany’

Over 25 years of experience in production, installation and integration

IDEAL INTEGRATION

REVOX MULTIUSER 3.0

Product development at Revox focuses on quality and durability thanks to the modular design of the products and systems. The company prioritises consistent and open interfaces during product upgrades to ensure secure application programming.

The Multiuser 3.0 system comes with numerous interfaces (triggers) to control multiuser and even multivendor components or products.

INTEGRATION IN BUILDING AUTOMATION

Multiuser 3.0 is fitted with a well-documented network interface that significantly simplifies integration into building automation systems.

Revox works steadily with premium partners to develop standardised plug-ins and integration modules for a variety of smart home systems.

MULTIUSER 3.0 KNX GATEWAY

The Multiuser system is easy to integrate into the KNX building control system thanks to the Revox Multiuser 3.0 KNX Gateway as an interface.

All very smart and simple.

Learn more about the Revox Multiuser 3.0 KNX Gateway.

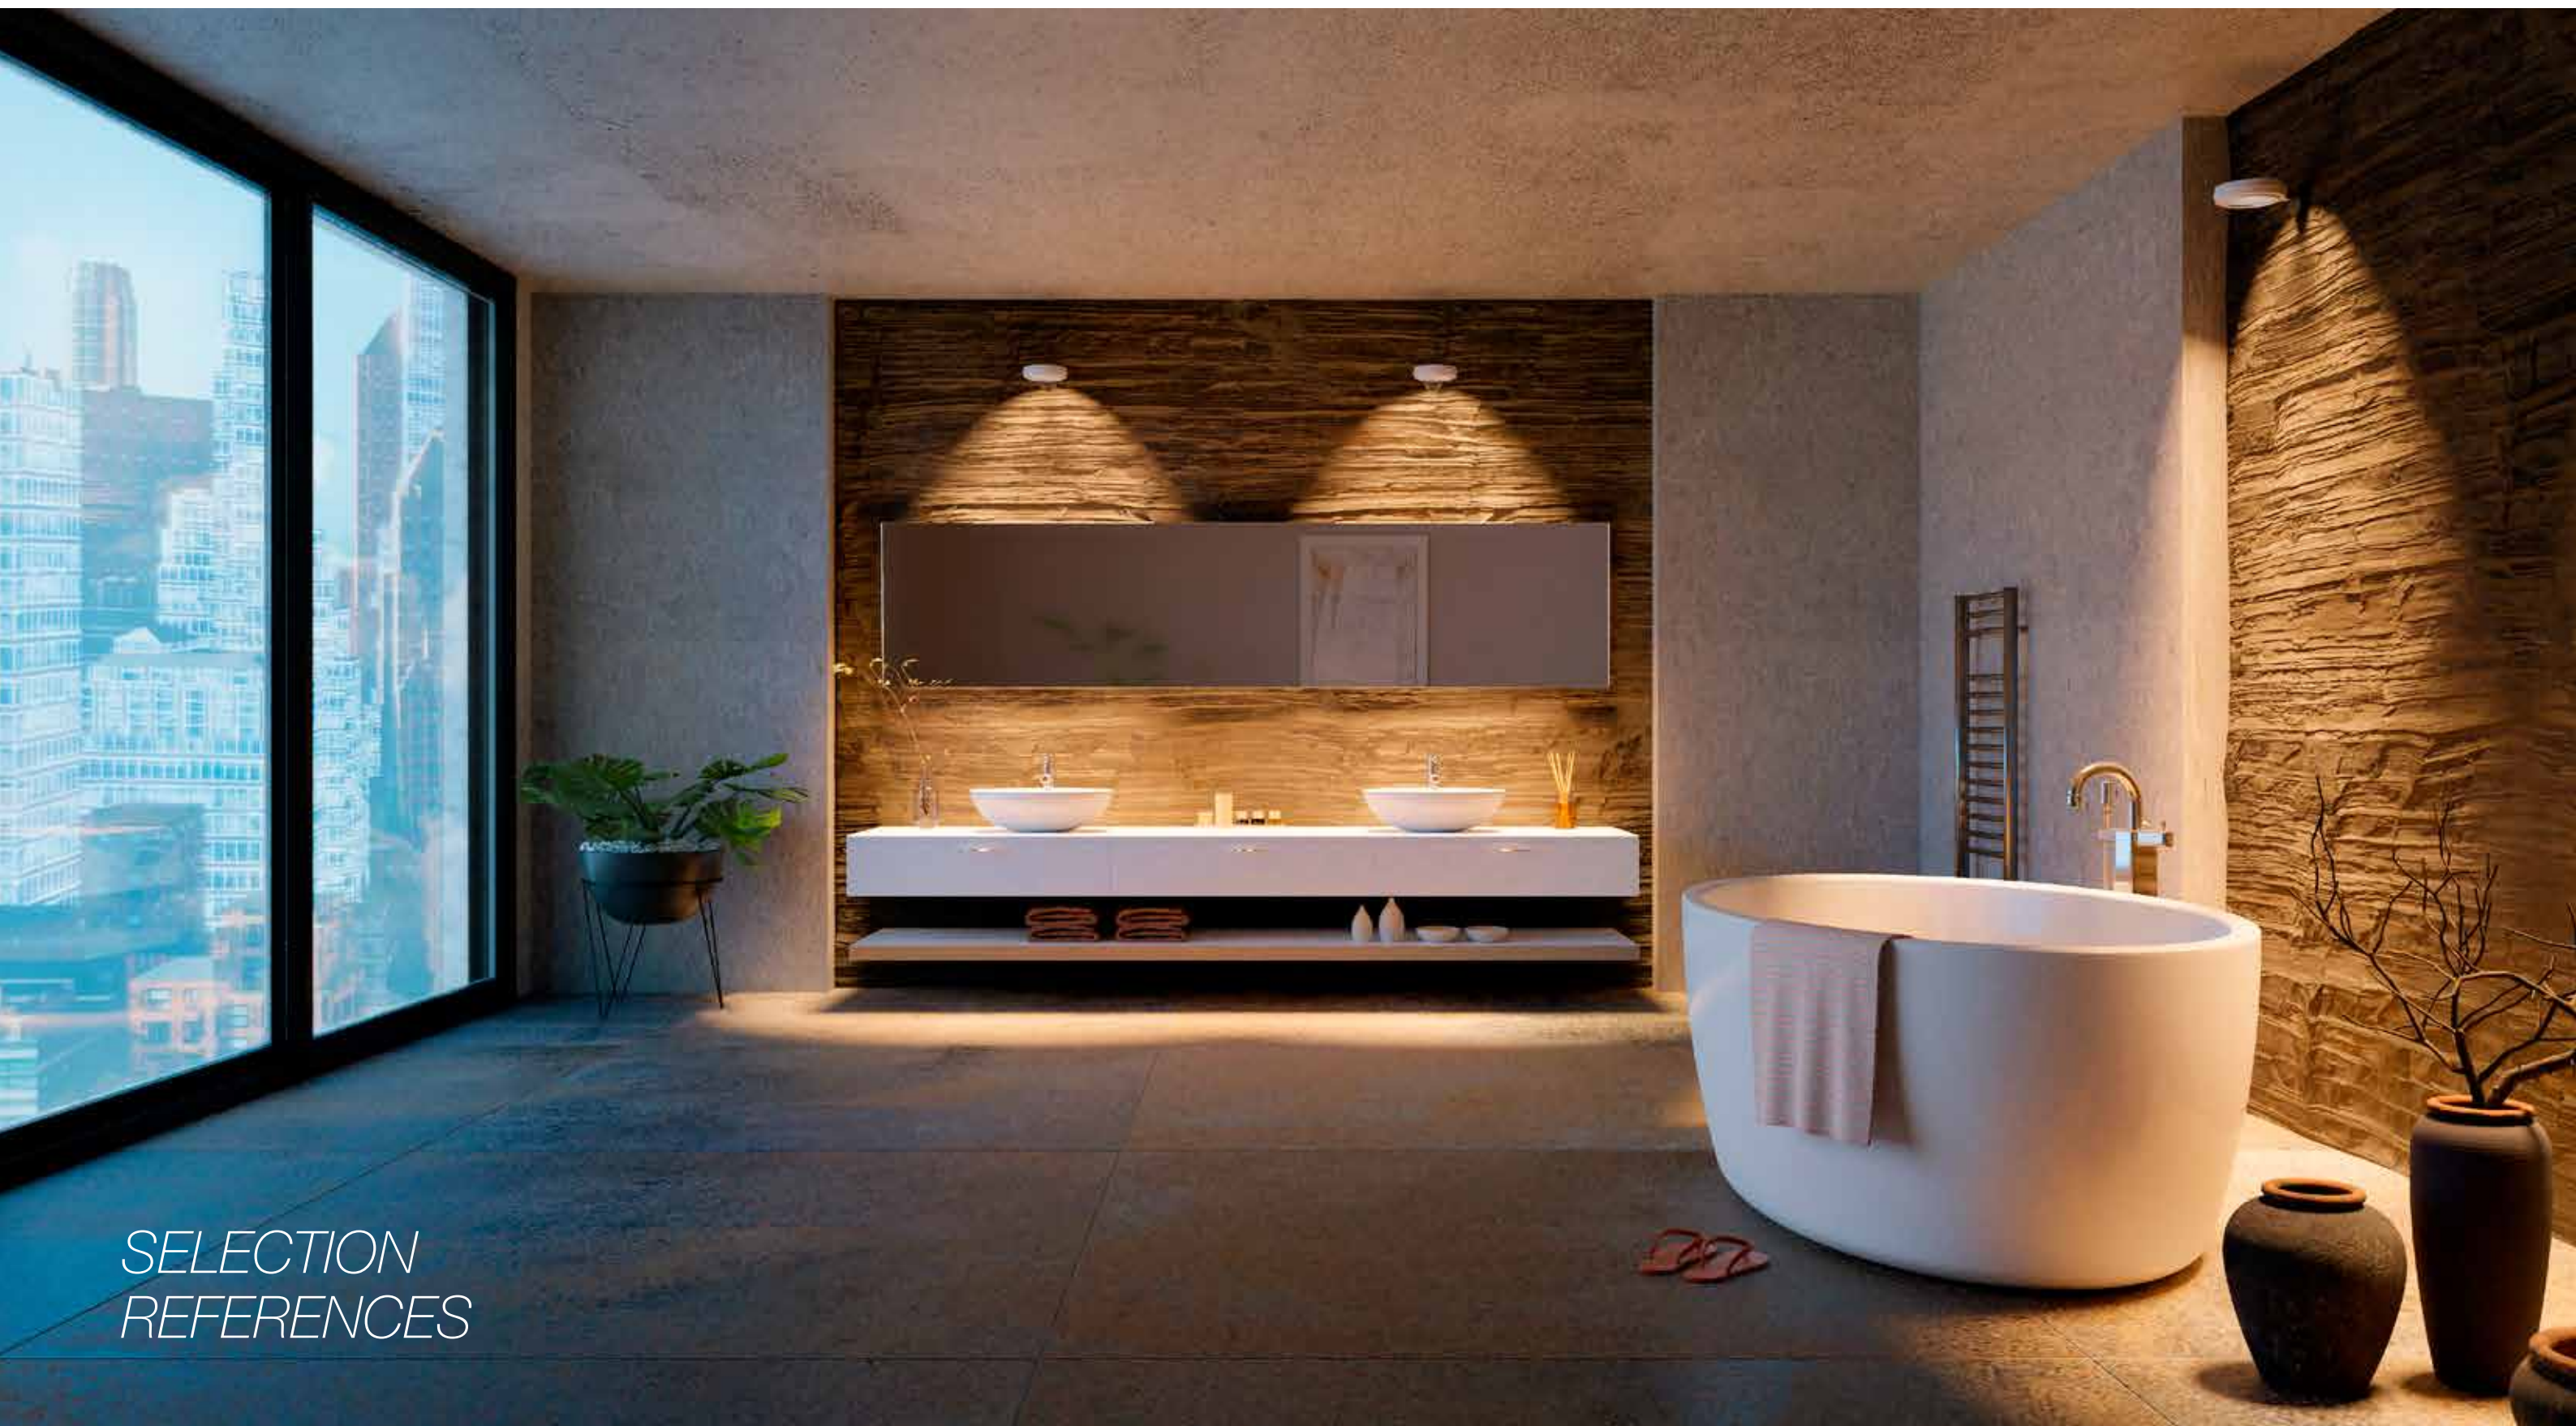

PARTNERSHIPS

We collaborate with selected premium companies to develop coordinated technical solutions and ensure optimised smart home integration.

Hotel room

– 5 Star Hotel and Spa – exudes the atmosphere of a private urban mansion, open to guests sharing a certain travel philosophy. Close to the Champs-Élysées, the Place de la Concorde and the Eiffel Tower, the La Réserve sets milestones for exclusivity of architecture, design and living culture.

“To ensure the wellbeing of our guest is our highest aspiration. Music can be an important element of such wellbeing, especially when it conveys harmony and recreation through highest sound quality.

The Revox audio systems and their invisible speakers installed at La Réserve are optimized for the various guest requirements in different hotel areas and were customized for the best fit in our historical building.

Using Revox products is for us a very conscious decision to fulfill our goal of excellence”, says Julien Gardin Hotel Manager La Réserve Paris.

There are locations that are imbued with a particular strength. We can sense immediately: This is the right place for me!

The Seezeitlodge is one of these places. Surrounded by greenery. Built close to the water. Full of good cheer for precisely these reasons. Free-spirited. But still down to earth. Perched on its own on a small, forested promontory – with a stunning view over Lake Bostal in the Sankt Wendel region. The power of the location is reflected in the atmospheric quality of the interior as well. Its design creates an authentic and laid-back lodge style: cozy but not common. Inspirational and refreshingly different.

SEEZEITLODGE HOTEL & SPA
GONNESWEILER, DE

“Although our audio system from an American provider was still working well, we made a conscious decision to upgrade it. This was entirely due to the exceptional and persuasive Revox sound quality, the eye-catching design and, last but not least, the personal and individual support we received from the Revox team. Guests can now enjoy an acoustic counterpart to all the other unique experiences at our hotel”, says Christian Sersch – Host & Managing Director at Seezeitlodge.

Heiko Neundörfer, Managing Director of HiFi Forum GmbH: "An invisible speaker system is advisable for old buildings especially, as it will not disturb the structural features or furnishings. For our Invisible Showhouse, the overarching idea was therefore to ensure that the technology slips seamlessly into the newly created design and remains largely hidden. We deliberately opted for invisible sound membranes from Revox | purSonic due to their outstanding quality."

INVISIBLE SHOWHOUSE/HOME
LAUF AN DER PEGNITZ, DE

Thomas Brett, Managing Director of Brett Einrichtung GmbH, owner and developer: "We recognised the potential of the old house straight away, although there was still plenty to do, of course. We were immediately thrilled by the idea of using concealed technology. Doing so transformed the modern digital lifestyle and the cosiness of the old stone building into a harmonious whole."
